8) Two statements showing the articles originally proposed within rates and also articles finally proposed with the rates is put up for appl or other orders (Refer para 7 supra)

9) A definite procedure has been prescribed for levying any tax or fee or octroi. Section 65 of the city Mlties Act 193 states that the Municipal council must, by a resolution passed at a general meeting, select the articles to be taxed and propose the amount to be levied. The Municipal council shall publish the notice mentioning therein the proposed levy of octroi and also the rules of the octroi, if any, for levying and recovering. Objection, if any, should be called for from the public and after receipt of objections, they may consider those objections and submit their final proposals. Govt may approve without

From
The M.C. Comm Davangere
H.C. 162/53-54 dt 7.5.54
Forwards a copy of the resolution dated 28.11.53 called for

12 A copy of the resolution dated 28-11-53 of the Municipal Council, Davangere, called for is since received and is flagged "J"

13 It is seen from the resolution of the Municipal Council dated 28-11-53 that the Municipal Council have proposed to levy octroi on several articles The rate of levy has also been published The classes of ~~people~~ property which are liable to octroi are also noted. This fulfills the condition required under section 65(a) of the City Municipalities Act Then this was notified and objections called for After hearing objections, the Municipal Council decided to omit certain articles - vide statement - page (25) 17.

14 The items that have been omitted have been rounded off in red pencil to avoid confusion 39 items have been omitted and the remaining 38 have been retained. Of those retained, 3 items viz , Jaggery, Sugar & Kerosine oil were already subject to octroi, and the remaining were all fresh items

Flag P' 15 The statement enclosed clearly shows that the Municipal Council while passing the resolution has taken into consideration all objections filed by several persons

Note — Contn Sheet

and then reduced the rate of octroi by nearly 25% of the originally proposed rates on fresh items

16 There are objections from innumerable persons and Agitation Committee has been formed Representations have been printed and every person affected by this proposal, has signed the printed objection petition, and sent to Government The objection petitions so far received come to 272 besides the above petitions 94 telegrams have been received protesting against the levy

17 - The Merchants' Association also has requested Government to reconsider the proposal of the Municipal Council and not to levy octroi

18 Taking all these into consideration, I opine that the Municipal Council has made a bold step in levying octroi on fresh items, besides enhancing the rates on 3 items This has been made with the object of improving the financial condition of the Municipality so that the Municipality may be able to repay the loan it has taken to improve the water supply But Govt cannot also ignore mass representations of various classes of merchants and institutions The people are already subject to several kinds of taxes They are (1) Taxes levied by Central Government
(2) Taxes levied by State Government.
(3) Taxes levied by local and municipal Governments

19 As is evident any new tax levied is a burden that will be transferred to the citizen and the merchant or any association that deals with that article, has to make a profit after paying the octroi Therefore the

Serial No

burden is still heavier.

20 Taking into consideration the desire of the Municipal Council to levy octroi and also the request of several institutions, I suggest that the enhancement of the rate of octroi on only 3 items viz., JAGGERY, SUGAR & KEROSENE OIL is not desirable These 3 are commodities which are required by the poor man and any increase of octroi will be a burden

21 As regards the fresh items, I suggest that Govt will be showing great concession and also due consideration to the several representations, if they reduce by 50% of the rates finally proposed by the Municipal Council.

22 This satisfies all classes of people and in course of time the Municipal Council may think of enhancing the rates.

23) 18/5

18/5 Secy Dept)

24) What was the previous rate on Jaggery Sugar and Kerosene oil? What is it proposed to be now? Publy poor

19/5/34

	Existing Rate	Rate proposed now
25) Jaggery	0-0-6 Per Maund	0-0-9 per Maund
Sugar	0-2-0 Per Maund	0-2-0 (The same Rate)
Kerosene	0-1-0 Per tin	0-1-6 Per tin

annum The liability of the Municipality every year towards some important items is more than Rs.7 lakhs as mentioned in the Commissioner's letter of 28/29th December 1953 The efforts of the Municipal Council to rehabilitate and improve its finances so as to be in a position to repay the loans being advanced by Government for improving the schemes, like water supply, etc , is laudable and needs encouragement

27) But there has been widespread protests against these levies. We have received 272 objection petitions and 94 telegrams Although we need not be deterred by the mere numbers, it would appear to me to be desirable to make a few concessions to satisfy the public During my discussions with the local representatives it was felt that if (i) the existing rate with regard to jaggery is not increased and (ii) the proposal to levy octroi on medicines and tur-dhall is omitted, it would satisfy the people to a considerable extent I would therefore suggest that the proposals of the Municipal Council be approved with the above modifications

21/6

33) Submit with draft Corrigenda for approval

JS 22/6

Remember

34) A doubt has arisen whether an order modifying the G.O. dated 12.6.54 may be issued in the form of a proceeding or may be issued in the form of a Corrigenda. The Asst. Sec. has been pleased to instruct that to avoid further complications a revised G.O. may be put up for orders of Govt.

35) Accordingly a revised G.O. is put up for approval

In this connection it may be pointed out that on a separate file of Davangere City Mun. re levy of octroi on 18 first articles the Legislation Br. has observed that the action of the MC is irregular. As per rules they have to obtain prior sanction of Govt. if they want to levy octroi on first items

36) It is better if the Legislation Dept. is consulted before the issue of orders

Sub - Levy of Octroi on fresh commodities not previously subjected to Octroi duty in Davanagere City Municipality

***

I write to state that Government in their Order No L 2068-70/C M 27-53-2 dated 8th June 1953 while approving the draft Budget estimate of Davanagere City Municipality for the year 53-54 observed that the Municipality owed to Government certain arrears aggregating to Rs 111670/ and that this should be paid immediately Besides, the annuity and interest towards Government loan of Rs 7 lakhs which amounts to Rs 117200/14 remains unpaid All the resources of the Municipality have been inelastic and static There has been a phenominal rise in Municipal indebtedness owing to growth of local consciousness and increasing demand for civic amenities, so much so, that it has become almost impossible to meet local demands from its current resources I append below for the information of Government the immediate liabilities of

LIABILITIES		Rs		
1 Annuity of Government of 7 lakhs		59,200/-		
2 Interest -do-		58,000/-		
3 Medical contribution including Midwives and maternity		29,066/-		
4 Education Cess		18,108	1	3
5 Health Cess		390	1	10
6 Municipal High School		4,000	0	0
7 Electric Bills		21,652	0	0
8 Supply Bills of Firms		18,588	0	0
9 Contractors Bills including arrears		90,000	0	0
10 Acquisition charges excluding conversion fines Land value 1,04,922 1 9	3, 39,412	1	9	
Conversion Fine 2,34,490 0 0				
11 Return of emergent deposit		5,000	0	0
12 Municipal commitment towards City Improvement Works		25,000	0	0
13 -do- A K Hatty		15,000	0	0
14 Areears of pending contribution		20,000	0	0
Total - Rs		7,03,416	4	10

of this Municipality which amounts to 7,03,416-4-10,

Roughly speaking this Municipality has to pay every month Rs 23,000/-towards salaries, Rs 6000/- for electric charges both for street lighting and power supply, a monthly contribution of Rs 1000/- to the Municipal High School and a demand of Rs nearly Rs 1500/- towards education and Health - cesses Besides these monthly charges, it has to provide nearly 55,000/- rupees per month for meeting the above liabi--lities From a detailed study of ways and means and also on account of the existence of huge inevitable expenditure, It has been found very necessary that unless resources of this Municipality are improved and its revenue augmented it will not at all be possible to meet its recurring charges and the past commitments out of normal resources In view of the present claims of (1) contractors who have already completed the works in the past and a-waiting payment, (2) suppliers of stores to the Municipality (3) inevitable claims such as sa--lary to the staff, electric charges,cesses etc , it is not possible to pay this year either several Government contribu--tions due by the Municipality or payments of annuity and - interest towards Government loan advances made in the past The demands of the citizens and the Municipal councillors for taking up several improvements of the City and defraying their cost from the normal taxes are increasing almost daily All endeavours to put these off tactfully have elicited - poignant criticisum against the executive authority of this Municipality The Municipal Council have submitted resolu--tions to the Government requesting them to grant loans to the extent of 4 15 lakhs to take up under ground drainage scheme by stages, another loan of Rs 32,000/- to purchase lorries for compost making and a 3rd loan of Rs 21,000/- for purchasing switch gear equipment for Davanagere Water Works at Harihar Hence the question of finding new resources of Revenue has become an inevitable and imperative necessity

3

The Municipal Council having been aware of this critical situation have resolved on 28-11-53 as per extract enclosed to levy Octroi on additional items of commodities as listed in the enclosed notification and grant of exemptions on 13 items indicated therein with proviso to rule 24 of the Octroi Bvelaws as indicated, therein The Council expects by this levy an additional revenue of about Rs 2 lakhs per annum

In the list proposed by the Council the first 20 items come under the purview of the Sch II Classes I to VII of the City Municipalities Act 1933 and the other items 21 to 55 require approval of Government , Under Class VIII of the said schedule I request that approval of the Government may kindly be obtained therefor early

In the meantime, anticipating kind sanction of Government, I have issued a notification in the Gazette, as per copy enclosed, calling for objections from the citizens

I therefore request for kind approval of the action in the matter

FORWARDED

(B I GOPALA RAO)
PRESIDENT,
CITY MUNICIPAL COUNCIL,
DAVANAGERE

Yours faithfully,

(K Narasimhaiengar)
MUNICIPAL COMMISSIONER,
DAVANAGERE CITY MUNICIPALIT

8 6959 5

CHEMISTS & DRUGGISTS ASSOCIATION,

Davangere,
25th January 1954.

The Commissioner,
City Municipal Council,
DAVANGERE.

Dear Sir,

Re Proposal to levy Octroi on additional items of Goods imported to the City.

With reference to your notification No.M.C.162/53/54, dated 28th-29th December 1953, published in the Mysore Gazette dated 7-1-1954, informing that the City Municipal Council, Davangere, has at its meeting held on 28th November 1953, resolved to levy Octroi on certain additional items and calling for objections, to the said proposals, the Chemists & Druggists Association, Davangere, desire to submit the following, for your kind notice and favourable consideration.

2. At the outset I am directed to inform you, that an Emergency Meeting of the Members of this Association was held on 22nd January 1954, at which the said Notification and the implications were fully considered and discussed. All the members present expressed great surprise and resented and thought that if these unjust methods were adopted by the Municipality, it will not only be a great hardship to the members of this Association, but also will cripple the entire trade and commerce of our City. Therefore a Resolution protesting emphatically against the levy of Octroi on all the additional items in General and on Medicines, Infant Foods and Stationery articles in particular, was passed unanimously. A copy of this Resolution is enclosed herewith for your information.

manner anywhere in this country and, therefore, this Association hopes that the Municipal Council will reconsider when these vagaries are brought to its notice.

3. The members of our Association feel that the City Municipality has committed a great blunder in making these unjust porposals, especially at this critical juncture, when trade, commerce and industry are facing serious troubles and are in a turmoil. You are already aware that the general economic condition in our country is changing rapidly and along with it the pattern of our trade and commerce has also changed. The days of boom period and controls are over and it is now the buyer's market and not the seller's. As such the merchants are trying very hard to adjust themselves to these changed circumstances. Even the Government have realised this changing period and have come forward to help trade and industry in all possible ways. Knowing that the mercantile community are subjected to very heavy burden of taxation, both direct and indirect, they have appointed the Taxation Enguiry Committee to investigate how best relief could be given so as to encourage trade and industry. The members of this Association, therefore, are very much disappointed to find that the City Municipality instead of helping and promoting trade and industry in our city, should have brought forth proposals which would ultimately cripple them. We are sorry that the Municipality in its anxiety to get more revenue are trying to deal a heavy blow on the mercantile community by such unscrupulous levy. It is all the more unfortunate that the City Municipal Council has not cared to invite the opinions of various trade interests before bringing such unjust taxation.

4. You are aware that the Government of Mysore have appointed a committee to investigate into the hardships caused by the levy of the present multi-point Sales-tax in our State Various trade interests including the Chamber of Commerce have represented to the said committee to suggest to the Government to remove altogether the Octroi duty now levied by Municipalities, if any form of Sales-tax is levied. We also learn that the Committee has already submitted its report to the Government and the same is under the active consideration of the Government. As such it will be highly improper and unwise for the City Municipal Council to increase the number of items for the levying of Octroi,.

5. Davangere is a big commercial city and occupies a very prominent place in our State. On account of its favourable location and due to the business acumen of the mercantile commuhity, a first class wholesale trade is built up in certain essential commodities and consumer goods, especially in Stationery articles and medicines. In fact Davangere is the feeding centre to many places within a radius of hundred miles. Every hundreds of merchants flock to Davangere to make purchases instead of going to Bangalore or Hubli. One of the reasons why merchants come to Davangere is that the margin of profit by dealers of this place is a small one and many a time the wholesale rates are at par with Bombay and Bangalore quotations. If Octroi is levied as proposed in the Notification, the merchants of neighbouring areas will not come to Davangere but go to places where there is no Octroi. And, therefore, ultimately the trade and commerce of this city built at great sacrifice and length for decades will collapse.

6. The members of this Association feel that there are many other w ays of increasing the revenues of the Municipality and if the Municipality is earnest to increase the revenue it can as well invite suggestions from the general public or appoint a committee to go into the question In the opinion of this Association the levy of Octroi duty should be of a very limited nature and no Municipality should fall upon it very heavily for such a levy will only cripple trade and commerce ultimately. The memers of our Association further are very much surprised at the ingenuity of of the Municipality in adding 60 to 70 categories, all of a sudden, practically covering every article of trade from a tooth-brush to a textile machinery. Such a levy is not resortsdand in this manner anywhere in this country and, therefore, this Association hopes that the Municipal Council will reconsider when these vagaries are brought to its notice.

7. We need hardly state here that Medicines and Infant Foods are very essential to the life of the community and hence they should be treated with utmost consideration and top priority. Even the Government of India is trying to reduce their prices by reduction of Import duties and in many places they are exempt from all local taxations. We feel, therefore, that the Municipality should not levy any kind of duties on goods which are very essential to the life of the people.

8. The members of our Association also object to the levy of Octroi on the following goods in Class VIII on the ground that the imported prices of these goods is already high and they are available at competitive prices in other markets:

28. Confectionery including all kinds of etc.
29. Imported articles such as buttons, playing cards, thermoflasks etc.
29. Glassware.
30. Bakelite materials
31. Celluloid materials
34. All plastic materials
33. Rubber including rubber goods
67. Chemicals including explosives
50. All kinds of medicines
51. Brushes of all materials
53. Stoves etc.
54. Paper for writing etc.
55. Oilman stores (Complete)

The Association also objects to the levy of Octroi on the following:

Class I: 5. Oats
Class V: 17: Tobacco: Cigarettes, etc.

9. If Octroi is levied on these articles it will be a very heavy burden to the consumer and as a res it trade will naturally be diverted to other places.

This Association, therefore, requests you to consider the above objections and bring it to the notice of the City Municipal Council so that it may rescind its previous decision.

Yours faithfully,

M R Nagaraja — President.
Sathanarayana Sorabh — Vice-President.
A Veerappa — Secretary.

THE DAVANGERE TRADES ASSOCIATION

COMMUNICATIONS TO BE ADDRESSED TO THE HON SECRETARY

DAVANGERE
(Mysore State)

No T 208/53-54

Date 28th January 1954.

To.

Sri The Municipal Commissioner,
Davangere City Municipality,
DAVANGERE

SIR,

Re proposed levy of octroi on certain additional items of goods

With reference to your notification No F C. 162 dated 28/29 December 1953, informing that the City Municipal Council, Davangere, has at its meeting held on 28-11-53 resolved to levy octroi on certain additional items and calling for objections thereon, I wish to submit the following for your kind notice and favourable consideration

In this connection, I wish to inform you that a special general meeting of our Association was held on 27-1-54 at 6-30 P M. to consider the said proposals and their implications The meeting was attended by all the members of the Association and also many representatives of various Assocaations and trade interests as well as by many rate payers After a lengthy discussion a resolution strongly protesting against the proposed levy of octroi on all the additional items as publised in the said publication and also requesting the City Municipality to arrange for a meeting with a committee consisting of representatives of various trade interests at an early date so as to enable them to discuss this matter fully, was passed unanimously The meeting also resloved to request the Municipality not to proceed further in this matter until the proposals have been discussed with the members of the said committee I am herewith enclosing a copy of the resolution for your kind notice and favourable consideration I shall be sending you the names of the members of the said committee shortly to enable you to take further steps in the matter and also invite them for the said meeting.

8) Walawalkar & Co ,
9) Brahmappa Thavananpanavara Lt

P

Under these circumstances I request you to note that the entire commercial interests in this city are opposed to the levy of octroi in any form at this juncture when trade and commerce are facing serious difficulties. They are prepared to discuss with the Municipal authorities regarding the need for increasing the revenue of the Municipality and shall be glad to give concrete suggestions in the relaf behalf.

Therefore, I would request you to avail this opportunity and take such steps in the interests of trade and commerce of our City and also avoid unnecessary complications.

I shall be glad if you write to me at an early date in this matter and let me know the views of the city Municipal council

Thanking you,

Yours faithfully,

Yajamaan Mothu Dodappa

President

Copy of the above is forwarded with compliments to,-

Subject -Levy of Octroi on fresh commodities not previously subjected to Octroi duty in Davangere City Municipality
---

In continuation of this Office letter of even No dated 28/29th December, 1953, on the subject mentioned above, I write to state as follows

A Gazette Notification No H C 162/53-54, dated, 28/29th December, 1953 was issued calling for objections if any to the proposed levy The Notification was published in the Mysore Gazette dated 7-1-1954 as in the copy enclosed

The following objections to the proposed levy of Octroi received in this connection are enclosed in original for kind perusal of Government

1) Merchants licensed by the Regulated Market Committee, Davangere
2) Merchants of Davangere
3) President, Octroi Agitation Committee, Davangere
3a) President, The Davangere Traders Association, Davangere.
4) President of the Public Meeting held on 28-1-54 in Dharmapravartha Rajananalli Hanumanthappa's Choultry at Davangere
5) Chemist and Druggist Association, Davangere
6) Burmah Shell,
7) Messrs Iyyanahalli Channabasappa & Sons,
8) Walawalkar & Co
9) Branmappa Thavanappanavara Ltd ,

P T O

Presidentship of a local merchant, Sri Kasala Sreenivasa Setty requested the Municipality to withdraw the levy since it causes hardship to merchants The Secretary, Regulated Market Committee, Davangere, forwarded a petition received from the merchants of the Regulated Market Committee to exempt the Regulated Market Produce from the Municipal Octroi levy and the local merchants also sent a similar objection petition A Committee styling itself as an "Octroi Agitation Committee" with a personnel of twentyfive merchants under the Presidentship of Sri Kasala - Sreenivasa Setty sent a similar objection petition and asked the Municipality to arrange for a discussion with them on the levy of Octroi The Davangere City Tobacco Merchants and Grocers also registered their objection Messrs Burmah Shell, Belgaum, Messrs Iyyanahalli Channabasappa & Sons, Davangere, Messrs V R Jalavalkar, Davangere, Messrs. Brahmappa Tavanappanavar Ltd , Davangere, objected to levy of Octroi on Diesel Oil Finally the Davangere Trades Association sent with their letter No T 212/52-54, dated, 6-2-1954 a list of representatives of various trade interests who were chosen in the General Body meeting of the Trade Association held on 27-1-1954 for being invited for an informal meeting of the Municipal Council and the representatives Accordingly as requested by them and by the Octroi Agitation Committee, invitations were sent out to all the members noted in their list and also to the representatives of different trades that objected to the levy, to attend the informal meeting on 20-2-1954 in the Municipal Council Hall where the Municipal Councillors were also present The meeting continued for over three hours and deliberations were held At the end, the - important leaders of the representatives present after holding deliberations among all their representatives informed the President in Council that they would discuss the matter among themselves and arrive at a satisfactory decision and communicate the same to the President within the next ten days and in the if they wanted any statistics they will approach the he same Accordingly Sri M P I Iyengar,

Messrs

10) Tobacco Merchants and Growers, Davangere,

11) Davangere Coffee Dealers Association,

12) Davangere Cloth Merchants Association,

13) The owners of Motor Vehicles and Spare parts dealers, Davangere

14) Bellulli Gurushanthappa & Sons, Davangere

It will be kindly seen from the nature of objections preferred that the objectors are mostly merchants plying the trade of goods proposed for Octroi levy Though the turnover of the Trade in Davangere is nearly four crores of rupees, the octroi now recovered is about 1½ lakhs of rupees This works out at 38 per cent They state that the proposed levy will cripple their trade The Chemists and Druggists Association go to the length of saying that the Municipality has committed a great blunder and class the levy as unjust, unscrupulous, unwise and improper They express surprise at the ingenuity of the Municipality and construe the levy as one of the vagaries They protest the levy on all items in general and medicines, stationery articles etc , in particular They feel that the Municipality should not levy any kind of duty on goods, while their constituents and patrons the Indian Medical Association, Davangere, support the levy a betterment levy to improve sanitation, health, water supply and other civic amenities. The Davangere Cloth Merchants' Association object to enhancement of duty on cloth from 1-9-0 % to Rs.2/- % Advalorem Messrs Bellulli Gurushantappa & Sons, object to the levy on chemicals and explosives The Davangere Coffee Dealers Association object to the levy of octroi on Coffee as the levy will affect their Coffee business The Motor accessory dealers protest against the levy on Motor spare parts The Davangere Trades Association oppose the octroi levy and requested the Municipal Council to meet the representatives of various trade interests so as to discuss the matter fully and finally A public meeting held on 29-1-1954 under the

Presidentship

Presidentship of a local merchant Sri Kasala Sreenivasa Setty requested the Municipality to withdraw the levy since it causes hardship to merchants The Secretary, Regulated Market Committee, Davangere, forwarded a petition received from the merchants of the Regulated Market Committee to exempt the Regulated Market Produce from the Municipal Octroi levy and the local merchants also sent a similar objection petition A Committee styling itself as an "Octroi Agitation Committee" with a personnel of twentyfive merchants under the Presidentship of Sri Kasala - Sreenivasa Setty sent a similar objection petition and asked the Municipality to arrange for a discussion with them on the levy of Octroi The Davangere City Tobacco Merchants and Grocers also registered their objection Messrs. Burmah Shell, Belgaum, Messrs Iyyanahalli Channabasappa & Sons, Davangere, Messrs V R Walavalkar, Davangere, Messrs Brahmappa Tavanappanavar Ltd , Davangere, objected to levy of Octroi on Diesel Oil Finally the Davangere Trades Association sent with their letter No T 212/52-54, dated, 6-2-1954 a list of representatives of various trade interests who were chosen in the General Body Meeting of the Trade Association held on 27-1-1954 for being invited for an informal meeting of the Municipal Council and the representatives Accordingly as requested by them and by the Octroi Agitation Committee, invitations were sent out to all the members noted in their list and also to the representatives of different trades that objected to the levy, to attend the informal meeting on 20-2-1954 in the Municipal Council Hall where the Municipal Councillors were also present The meeting continued for over three hours and deliberations were held At the end, the - important leaders of the representatives present after holding deliberations among all their representatives informed the President in Council that they would discuss the matter among themselves and arrive at a satisfactory decision and communicate the same to the President within the next ten days and in the meanwhile if they wanted any statistics they will approach the President for the same Accordingly Sri M P N Iyengar,

SECRETARY

Secretary of the Chemists and Druggists Association, approached the President and he was given by the President a copy of a note given to the press people regarding the receipts and expenditure of the Municipal Council One Sri P.V Vasudeva Setty, styling as the convenor of the Octroi Agitation Committee wanted the financial figures in detail under each Budget head for the past Nine years under all categories, (1) Estimated, (2) Revised and (3) Actuals including the draft Budget Estimates for 1954-55 When he personally interviewed the President, the President informed him that the financial statistics given to Sri M R N Iyengar which his Agitation Committee scrutinised represents the correct state of financial condition Except a threatening letter from this gentleman that the Municipality will be responsible for future consequances that may arise out of any decision taken by the Municipal Council no further communication was received from the Trades Association of Davangere On 11th March, 1954, a Special Meeting of the Municipal Council was convened to go into the question of levy of octroi on 63 additional items and Enhancement of the existing levy in certain cases as notified in the Mysore Gazette together with the objections received to such a levy The Council after going through in detail all the individual objections Enumerated above decided to refer the matter for detailed consideration of the following influential Committee who are mostly merchants

1) The President (Chairman), Member, Indian Medical Association, Davangere

2) Sri I Doddaveerappa, Municipal Councillor, (Vice-President, Trades Association, Member, Regulated Market Committee), and oil Mill Owner

3) Sri Sivappa, Municipal Councillor, Kirani Merchant,

4) Sri Sivasangappa, Municipal Councillor, Kirani and Groundnut Merchant,

5) Sri Keshavamurthy (of Messrs Channagiri Rangappa & Sons, Merchants, Electrical Goods Asbestos Agents, Industrial Suppliers etc ,) Municipal Councillor and Owner of Oil Mills and decorticator

6) Sri N B Gurudev, B A , Municipal Councillor

7) Sri B R Channabasappa, Municipal Councillor, Merchant (Ground nut merchant and Bus line owner)

8) Sri Hanumantha Rao Scindhe, Municipal Councillor, Groundnut Merchant

This Committee at whose deliberations I was invited to assist met on 12-2-1954 and studied all the objections received from several representative Associations of Trade and individual merchants and considered every application on its own merits They have considered each item of the levy in all its aspects and have recommended to the Council with due deference to the ~~kenny~~ tenour of objections received, the deletion of certain necessaries of life like ghee, butter, betel leaves, chunam, Cattle food such as oats, bran, chaff, ~~House construction materials such as manufactured wooden articles~~, Toys, Earthenware, Roofing sheets, Chemicals and Explosives, and certain oilman stores. Out of 63 articles notified in the Gazette calling for objections the Committee have recommended the deletion of 22 articles They are not for enhancing the existing levy on sugar, tobacco and wooden items, Hosiery and other textile fabrics since they would affect the consumers greatly They have reduced the proposed levy on the following articles From 0-2-0 to 0-0-9 per maund of Jaggery From 0-2-0 to 0-1-6 per 4 gallons tin of kerosene, From 0-4-0 to 0-2-0 per 4 gallons tin of Diesel oil, With regard to groundnut and cotton they have reduced the rate to a minimum As regards Coffee seeds and powder, they have recommended for a minimum levy of 0-8-0 per cent advalorem as against Rs 2/- proposed In respect of all other articles under clause VIII the Committee have suggested a uniform levy of 1-0-0 instead of Rs 2/- per cent advalorem. It will kindly be seen that about exactly half the number of articles has been omitted from the levy by the Committee while the rate of levy proposed in respect of commodities which are imported on a very large scale like groundnut and cotton have been brought to the utmost minimum and the enhancement proposed in respect of Sugar, Tobacco and Textile fabrics has not been commended by the Committee keeping in view the objection preferred by several trades of the City The Municipal Council at their Meeting held on 12-3-1954 have considered the recommendations of the Committee along with

the objections received and have approved the Counci recommendations in toto being just, equitable and fair

Meanwhile on 16-2-1954 some of the merchants headed by Sriyuth Lasala Sreenivasa Setty and P V Vasudeva Setty (who styles himself as the convenor of the Octroi Agitation Committee) have sent another petition stating that they wanted facts and figures pertaining to the present Municipal Finance so that fresh avenues of revenue may be explored by the Committee "They find fault with the President for having restored to bring this matter before the Municipal Council once again - - If the Municipal Council is still adamant and resolve to impose octroi levy as per the notification referred to above we feel that you and those councillors who support you in this move will be responsible for all the consequences that may follow this unprecedented step" Such is the tenour of their letter threatening the Municipal Council that they should be allowed to take their place and explore the Municipal Finance in the manner they liked quite opposed to all statute and legislation In all their agitation, there is not any relevant matter pertaining to the specific objections which might influence the decision of the council except threat The Trades Association which is the most representative body of all trades in Davangere have not addressed the President again nor have they sent any resolution except asking for an opportunity of their representatives to meet the Municipal Council to state their case Accordingly an opportunity was given to them on 20-2-1954, when the Municipal Councillors were present and heard their case Of course the Trades Association have not followed up their deliberations with any further written communication conveying their decision though the promised time limit of theirs as more than over Hence it was construed by the Council that they have no representation to make

The general trend of the objections of a large number of objectors who form only one sect of the Citizens viz , th

merchant community of Davangere, is that by the proposed octroi levy the trade of Davangere will be crippled considerably, since they are adjusting their trade to the changing times They add that on account of its favourable location and due to business acumen of the mercantile community of Davangere, a first-class wholesale trade is built up in certain essential commodities and consumer goods and as such they are the feeding centre for many markets within a radious of 100 miles and their wholesale rates are at par with Bombay and Bangalore rates If octroi is levied, business will migrate to other places The enhancement of Octroi duty on hosiery and textile fabrics will spoil their business Only very insignificant revenue of Rs 80 or Rs 100/- per year will accrue to the Municipality by the imposition of octroi on chemicals and explosives. The Coffee trade in Davangere will suffer a set back by the levy of octroi The commercial interests of the City are opposed to such a levy The Regulated Market merchants will feel the levy a great burdan The objections of the Octroi Agitation Committee and those of Chemists and Druggists Association are in the nature of threat and amount to unreasonable vituperations such as "the Municipality has committed a great blunder the levy is unscrupulous highly improper and unwise and amount to ingenuity and vagaries of the Municipality etc which do not primâ facie deserve to be rebutted The onl answer to the relevant objections is briefly as follows -

The rate of levy proposed is small and meagre and ranges between 1 to 3 pies in the rupee and as such the effect of the payment is not generally felt as a burden The incidence of the tax is clearly on the consumer who ultimately pays the tax indirectly The duty is small when compared with the value of the article itself so subjected and the effect of payment is not generally felt as a burden The realizations from this levy will be Ear-marked for repaying the Government loan of 15 40 lakhs raised for laying the 16" C I Pipe line from Harihar to Davangere a distance of 10 miles to replace the old steel pipe line which bursts and leaks almost daily being

being 37 years old The realizations from this levy are proposed to finance the project for improving the present precarious water supply system There is thus a direct correlation between the individual citizen's burden and his own personal benefit arising out of improved water supply rendered possible by the Government loan of 15 40 lakhs It is therefore the importance of the revenue derived from this source which obscures the objections to its levy on the score of trade impediment The Export of trade of Davangere will never be crippled as has been alleged by the objectors since there are ample provisions under the statute for refunds and passage of export trade without payment of octroi by issue of export permits under the rules and creation of storage in bond facilities to ensure the free passage of goods The trader will never be penalised as he assiduously transfers the same to the consumer at the point of sale The consumer is commonly little aware of it as the octroi paid by him will be in the form of a price and never as a tax It is an accepted principle in taxation that when a given price level is established for any commodity, people get used to it as the going rate and pay without grumbling There is therefore nothing inherantly wrong or unjust in such a levy when their realizations are going to be appropriated to improve their most primary want viz , their existing water supply system Hence this levy is entirely for their betterment The list of goods for which octroi has been levied from various Municipalities within a radius of 200 miles including the bordering area of Bombay Province and even Bellary District was requisitioned and placed before the Council and from this it is found on almost all the goods now proposed octroi is levied at a higher rate than that has been proposed now and so that fear of wholesale merchants that their trade will be crippled will not hold good The Committee appointed to report on the levy have spared no efforts to consider individu all the objections received very carefully weighing meticulous the degree and importance of each objection at great length

As a result of careful weighing of each objection the Committee have deleted nearly 22 articles and recommended the existing rates to continue in respect of Sugar, Tobacco, Hosiery and Textile Fabrics With due reference to objectors with regard to Jaggery, Kerosene Oil, Desiel Oil, Groundnut Seeds and Pods, Coffee and Cotton, the Committee have reduced the rate of Octroi almost to a minimum so that no hardship or retardation of trade takes place in respect these articles In the case of oilman stores and other miscellaneous articles, which are mostly luxary goods, the octroi has been reduced from Rs 2/- per cent to Rs 1-9-0 per cent advalorem The Municipal Council have considered the recommendations of the Committee along with the objections and have approved the Committee's recommendations in toto and request the Government very kindly to sanction the levy of octroi on the items recommended by the Committee and permit them to enhance the rate in respect of certain articles noted in the Committee's recommendations

In the list of additional articles recommended by the Municipal Council the first seven items come under the purview of schedule II Classes I to VII (Section 64 (iv & v) of the Mysore City Municipalities Act 1933 and the other items 8 to 25 which are to be classed under class VIII, require approval of Government I request that approval of the Government may kindly be obtained therefor early

I also submit herewith for kind perusal of Government a tabulated statement detailing the proposed levy under each class noted in Schedule II, the maximum rate as per schedule, the nature of objections, the Commissioner's Note thereon, the Committee's recommendation and the Council's decision for ready reference It will kindly be seen therefrom that the Committee as well as the Council have now omitted the imposition of octroi levy on essential articles and have confirmed the existing rates on sugar, hosiery, tobacco etc , and have reduced the proposed levy at the almost minimum in respect of other articles after thoroughly examining minutely all the objections preferred against the levy which has now resulted in bringing down the Io of

articles to the subjected to octroi duty from 63 to 31 The Committee have kept in view while recommending the levy of octroi to avoid taxation of necessaries and as far as possible the burden of the levy is distributed equitably among all classes of the population on account of varieties of commodities subjected to this levy since the realizations are to be utilized for improving the City's Water Supply which is beneficial to one and all

As already pointed out in great detail in my letter No F C 162/52-54, dated, 29-12-1952, the annuity and interest towards Government loan of Rs 7 lakhs which amounts to Rs 1,17,200/- remains unpaid Besides this, the Municipality owes to Government towards departmental contributions another sum of Rs 22,670/- It has become an uphill task to meet normal demands from its normal resources in view of the fact that the Municipal Expenditure is steadily rising while its resources are inelastic and static I have already submitted to Government in my above mentioned letter of 29-12-1952 the immediate liabilities of this Municipality, which amount to nearly over 7 lakhs The Government have in their order No L 21215-12/C 11-52-21, dated 11th March, 1952 sanctioned a loan of 15 40 lakhs repayable in 15 annual instalments and have already requested the Accountant General to place the Executive Engineer, Davangere in Funds to the extent of 6 lakhs in 52-54 It is quite probable that the outlay in 1954-55 may amount to more than 9 lakhs when the Municipality will be called upon to pay the annuity with interest The annuity and interest fixed for repayment of this loan, per year is Rs 1,48,362-0-7 This is in addition to interest and annuity of Rs 64,000/- payable for 20 years towards the discharge of Government loan of 7 lakhs already drawn by the Municipality It will kindly be seen that the Municipality will soon be called upon to pay to Government a sum of nearly 2,12,000/- per year This is in addition to the usual normal expenditure The Municipal Council have made a detailed study of ways and means and also the items

of all inevitable expenditure They have found it absolutely necessary that unless resources of this unicipality are improved and its revenue augmented it will not at all be possible to meet its recurring expenditure and the past commitments out of normal resources They have also studied the circumstances that have resulted in the postponement of payment of annuity and interest due to Government towards the Government loan of 7 lakhs of rupees since the Municipality has been unable to earmark a portion of its annual normal revenue towards the payment of annuity The demands of the Citizens and the unicipal Councillors for taking up several improvement works of the City and defraying their cost from the normal taxes are increasing almost daily In this predicament, the unicipality is already finding itself unable to repay the above Government loans which amount to Rs 22 40 lakhs at present owing to their extreme slender resources which are at present hardly adequate to meet normal obligatory and inevitable expenditure The Council are also fully aware that the proposed levy is strongly opposed by the merchants and other interested persons of Davangere City They have pondered over the matter deeply and for a long time They have not been able to find any other source to tide over their financial difficulty for it will be highly improbable if the Municipality will ever be able to repay their loan even if they are determined to do so from their normal resources Moreover the proposed levy is a common-place one in other Municipalities After bestowing their deliberate thought and careful consideration on so important a matter and having been unable to find any other source than the one suggested they have approved at their meeting held on 12-2-1954 the recommendations of the Committee consisting of mostly merchants I enclose herewith for kind perusal of Government a copy of their resolution together with a copy of the proceedings of the Sub-Committee appointed to go into the question thoroughly and make their recommendations I therefore request that orders of Government may kindly be obtained for the levy of Octroi on the items noted in the enclosed list at rates noted against

each since all the preliminary formalities required under Section 65 of the Mysore City Municipalities Act have not been observed

Forwarded

(B I Gopala Rao)
PRESIDENT,
CITY MUNICIPAL COUNCIL,
D A V A N G E R E

Subject Levy of octroi on fresh commodities not previously subjected to octroi duty in Davangere City Municipality

- - - -

In continuation of my letter of even No dated 26-3-1954, on the subject mentioned above, I write to state that the tabulated statement detailing the proposed levy under each class noted in schedule II etc, as mentioned in page 9 of my letter referred to above, was not enclosed to the said letter by inadvertence. The tabulated statement detailing the proposed levy as noted in schedule II, the maximum rate as per schedule, the nature of objections, my notes thereon, the committee's recommendations and council's decision, is enclosed herewith for kind perusal. I request you kindly to obtain and communicate to me early sanction of Government for the levy of octroi on these additional items as proposed by the municipal Council.

Forwarded,

THE DAVANGERE TRADES ASSOCIATION

COMMUNICATIONS TO BE ADDRESSED TO THE HON SECRETARY

OFFICE OF THE MINISTER FOR PUBLIC HEALTH & LOCAL SELF GOVERNMENT 30 MAR 1954 No. 3048

DAVANGERE (Mysore State)

No 1223/53-54 Date 26th March 1954

TO

The Hon'ble Minister,

For Health and Local self Government,

BANGALORE

Sir,

Sub - Proposed Octroi levy by the Davangere City Municipal Council as per Gazette Notification H C 162/2- 53-54 dated 28/29 the Dec. 1953

I have the greatest pleasure to put before you the following facts resolved at the executive Committee of the Trade Association Davangere held on Wednesday the 24-3-1954 for your sympathetic consideration

The merchants of the Davangere are very much agitated over the proposed octroi levy by the Davangere city Municipal Council It is no doubt that additional Octroi will cripple the trade and commerce of the city Although there was a meeting held on 20th Feb 1954 when both the council and the leading merchants met and failed to come for an amicable settlement The merchants desired to know the exact receipts and expenditure of the Municipality on the basis of which alternative suggestion may be made to increase the revenue Unfortunately the President failed to comply with the request of the mercantile community

I am directed to request you please advise the Municipal council to reconsider it along with public, otherwise it will be a flat denial of the privileges of democracy

Therefore merchants have decided to wait on deputation before your goodself and represent their ~~grievanty~~ grievances

P T O

(P T O

II

I shall be much obliged if you please receive ~~following~~ members of the deputation and inform me the convenient date earl

Thanking you,

Yours faithfully,

Yajaman Sreshtha Doddappa

Shri T Chennaiah, B Sc.,
Minister for Local Self-Government,
BANGALORE, 1.

Sir,

I beg to confirm the following telegram sent to your goodself

"WE EMPHATICALLY PROTEST AGAINST PROPOSED OCTROI LEVY VIDE NOTIFICATION HC-162/53-54 STOP PRAY RESCIND MUNICIPAL RESOLUTION ALTOGETHER CHEMISTS & DRUGGISTS ASSOCIATION "

2. The Association learns with great regret that the City Municipal Council in its anxiety to increase its revenues has even taxed Medicines and stationery which are daily required by the rich and poor alike In cities where Octroi is levied exemptions are made in respect of Medicines and stationery used by the common people. The idea underlying such exemption is not to burden the public with soaring prices for essential commodities.

3. The Government of India have been please to give concessions in import duties on Medical Specialities and certain stationery. For some medicines import duties have been waived as they are very essential to the community. It is very strange that the City Municipal Council should have resorted to such indiscriminate taxation proposals.

4. In certain cities and states Sales Tax even has been exempted for Medical Specialities, as they are very essential to the life of the people. We, therefore, request you to please exempt Medicines and Stationery from the proposed Octroi levy which has been forwarded to Government for sanction.

~~In the high~~ (P T O.

52

In the light of the above explanations and representations I request you to please rescind the proposals of the City Municipal Council on Medicines and Stationery.

Yours faithfully,

Sathyanarayana Sharma

Date 8th April 1954

Dear Sir,

Subject Levy of Octroi on 22 additional items in Davangere City Municipality

In continuation of this office letter No B C 162/52-54 dated 26th March 1954, on the above subject requesting sanction of Government for the levy of octroi on 22 additional items so as to pay the annuity and interest on Government loan aggregating Rs 40 lakhs regularly, I write to bring to your kind notice that an attempt is being made by some councillor to bring personal pressure and to obtain signatures of fifteen councillors to a petition written in English purported to be against the levy of octroi recommended to Government by the Municipal Council on the 26 March last One such petition signed by 15 councillors was presented to me by Municipal Councillor Sri Hallalli Veerappa on the 3rd instant More than five signatories to this petition have already applied to me to treat their signatures to this octroi agitation petition as cancelled and withdrawn It is strongly conjectured here that a copy of such a petition must have been sent to you or to the Minister for Local Self-Government In case such a petition has been received by Government, I request you kindly to send the same to me so that a report could be sent to Government in the matter Meanwhile I request you kindly not to take any action direct at Government level on this petition

With kind regards,

Yours sincerely,

B I Gopala Rao

Sri G V K Rao, B Sc(Hons) ,IAS ,
Secretary to Govt, L S G Department,

(55)

The President,
City Municipal Council,
DAVANGERE

Sir,

Subject Proposed levy of Octroi as per Notification No H C 162/53-54, dated 28th Dec 1953

You are aware that the public of Davangere City are very much agitated over the proposals of the City Municipal Council for the levying of Octroi as resolved in the City Municipal Council meeting held on 28th November 1953 Various trade interests of the city have objected vigorously to the proposals and on 28th January 1954 the City observed complete hartal to protest strongly against the measure. The Municipal Commiss has also received a number of written objections by different trades and public.

~~[illegible] the proposed octroi levy the public are~~ much agitated and the atmosphere in the city is not congenial such taxation. During the course of the month we have met several leading merchants who were once councillors and they are all united in opposing the proposals. It is very unfortunate that considerable heat and agitating spirit has come to stay with our citizens We apprehend that if the proposals are rushed through the situation will go out of control as municipal afrai will be ridiculed by the citizens We, therefore, request you to please drop the new proposals altogether and thus put a stop to unwanted and undesirable agitation of the citizens

Thanking you in anticipation,

Yours faithfully,

Davangere City,

SIR,

Sub Proposd octroi levy by the Davangere city Municipal council as per Gazetted Notification H C.162/2-53-54 dated 28-29 Dec 1953.

I had put before you the resolution passed at the Executive committee of the Trades Association, Davangere, held on Wednesday the 24-3-1954 in my letter addressed to your Hon'ble self dated 26th March 1954.

To recapitulate the contents of the resolution, may I add, the merchants of Davangere are very much agitated over the proposed octroi levy by the Davangere city municipal council In view of the differences between the merchants and The Davangere City City Municipal Council over the proposd levy of octroi remaining unresolved it was resolved by the merchants to wait on deputation before your goodself to represent their grievances. I had asked in my letter dated 26-3-1954 for a convinient date on which you would be pleased to receive the members of the deputation. But till now my letter has evoked no reply from your goodself. I request you once again to propose a convinient date on which you would be pleased to receive the members of the deputation.

Thanking you,

Yours faithfully,

Dr B I Gopala Rao, BS MBBS
PRESIDENT
City Municipal Council
DAVANGERE CITY

Date 17th June 1954.

D.O.No.H.C.162/53-54.

18 JUN 1954

Dear Sir,

I write to invite kind reference to G.O. No L 2306-9/MC 170-54-2, dated 5-6-1954, on the levy of Octroi on Additional Commodities and to request you very kindly to expedite the corrigenda thereon as the Government Order in question has to be recorded in Municipal Council along with the - Corrigenda so as to publish the same together for the information of public under Section 67 of the City Municipalities Act, one month in advance - before the levy could be enforced. Hence I - request you very kindly to expedite the corrigenda at an early date.

Yours Sincerely,

Sri G V K. Rao, B Sc (Hons) , I.A S ,
Secretary to the Government of Mysore,
Local Self Government and Planning Departments,
BANGALORE

PROCEEDINGS OF THE GOVERNMENT OF MYSORE

R E A D.-

Government Order No.L.2132-3/CM. 39-54-11 dated 2nd June 1954 sanctioning the proposals of the Municipal Council, Davangere, to levy octroi duty on additional commodities as per statement appended to the order.

2. Letter No.H.C.162/53-54 dated 9th June 1954 from the Municipal Commissioner, Davangere City Municipality, stating that some of the items have to be deleted in the Government Order dated 2nd June 1954 referred to above as there are repetitions of some items and requesting that necessary modifications may be effected as per the statement enclosed.

- - - - -

ORDER NO.L.3361-62/CM 39-54-22

Dated, Bangalore, the 26th June 1954

Government have sanctioned the proposals of the Municipal Council, Davangere to levy octroi on additional commodities in Government Order No.L.2132-3/CM. 39-54-11 dated 2nd June 1954.

The Municipal Commissioner, Davangere City Municipality, has since reported that there is repetition of some items in the Government Order cited above e.g., items 36, 39, and 40 are identical with items 14, 37 and 38 respectively and that they may be deleted Government after examining the question in detail consider it necessary to sanction the proposals afresh embodying the alterations and deletions suggested by the Municipal Commissioner Accordingly sanction is accorded to the proposals of the Municipal Commissioner, Davangere to levy octroi duty on additional commodities as per the statement apperded to this order with the modification that the existing rate with regard to jaggery is not increased and the proposal to levy octroi on medicines is omitted.

(V.Hanumanthappa)
For Secretary to Government,
L.S.G. & Planning Departments.

To

The Municipal Commissioner, Davangere City Municipality thro' the President,
Controller, State Accounts Department, Bangalore.

PROCEEDINGS OF THE GOVERNMENT OF MYSORE

R E A D:-

Government Order No.L.2132-3/CH. 39-54-11 dated 2nd June 1954 sanctioning the proposals of the Municipal Council, Davangere, to levy octroi duty on additional commodities as per statement appended to the order.

2. Letter No.M.C.162/53-54 dated 9th June 1954 from the Municipal Commissioner, Davangere City Municipality, stating that some of the items have to be deleted in the Government Order dated 2nd June 1954 referred to above as there are repetitions of some items and requesting that necessary modifications may be effected as per the statement enclosed.

- - - - -

ORDER NO.L. 3381-62/CH 39 Sl.-22

Dated, Bangalore, the 26th June 1954

Government have sanctioned the proposals of the Municipal Council Davangere to levy octroi on additional commodities in Government Order No.L.2132-3/CH. 39-54-11 dated 2nd June 1954.

The Municipal Commissioner, Davangere City Municipality, has since reported that there is repetition of some items in the Government Order cited above e.g., items 36, 39, and 40 are identical with items 14, 37 and 38 respectively and that they may be deleted. Government after examining the question in detail consider it necessary to sanction the proposals afresh embodying the alterations and deletions suggested by the Municipal Commissioner. Accordingly sanction is accorded to the proposals of the Municipal Commissioner, Davangere to levy octroi duty on additional commodities as per the statement appended to this order with the modification that the existing rate with regard to jaggery is not increased and the proposal to levy octroi on medicines is omitted.

V.Hanumanthappa 28/6/54

To

The Chief Minister, Government of Mysore

BANGALORE

Objection filed to the proposal for levy of Octroi duty on certain commodities mentioned in Notification No H C 124-52-53 dated 2-9-53 Published in the Mysore Gazette dated 10-9-53 by the Municipality Davangere City

REGARDING ITOM No 7 - TURDHAL AND No 6 FLOURS OF ALL KINDS - JAGGERY - INCREASE OF OCTROI

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice jawari or tur dhall If octroi is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhumai to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

To

The Chief Minister, Government of Mysore,

BANGALORE

OFFICE CHIEF MINISTER Date 29 3 54

2

Objection filed to the proposal for levy of Octroi duty on certain commodities mentioned in Notification No H C 124-52-53 dated 2-9-53 Published in the Mysore Gazette dated 10-9-53 by the Municipality Davangere City

REGARDING ITOM No 7 - TURDHAL AND No 6 FLOURS OF ALL KINDS - JAGGERY - INCREASE OF OCTROI

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice, jawari or tur dhall If octori is levied on the commodities, the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

To

The Chief Minister, Government of Mysore,

BANGALORE

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

To

The Chief Minister, Government of Mysore,

BANGALORE

OFFICE 13 29 3 54

Objection filed to the proposal for levy of Octroi duty on certain commodities mentioned in Notification No H C 124-52-53 dated 2-9-53 Published in the Mysore Gazette dated 10-9-53 by the Municipality Davangere City

REGARDING ITOM No 7 - TURDHAL AND No 6 FLOURS OF ALL KINDS - JAGGERY - INCREASE OF OCTROI

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice jawari or tur dhall If octoroi is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly art cles of food other than rice jawari or tur dhall If octori is levied on the commodities, the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and "humane side of" things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

Dear Sir,

With an apology for troubling you frequently, I wish to approach you again We are expecting a very large gathering from outside the State, both North and South The accommodation available here for lodging them is limited We, therefore, propose to accommodate the guests in tents I request you to be good enough to arrange to send me 20 tents of medium size It would greatly facilitate us, if the officers in charge of the tents are requested to arrange for sending them over to this place at our cost, if necessary They will all be returned in sound condition after use

Thanking you,

I am,

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice jawari or tur dhall If octroi is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

Objection filed to the proposal for levy of Octroi duty on certain commodities mentioned in Notification No H C 124-52-53 dated 2-9-53 Published in the Mysore Gazette dated 10-9-53 by the Municipality Davangere City

REGARDING ITOM No 7 - TURDHAL AND No 6 FLOURS OF ALL KINDS - JAGGERY - INCREASE OF OCTROI

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice, jawari or tur dhall If octori is levied on the commodities, the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Objection filed to the proposal for levy of Octroi duty on certain commodities mentioned in Notification No H C 124-52-53 dated 2-9-53 Published in the Mysore Gazette dated 10-9-53 by the Municipality Davangere City

REGARDING ITOM No 7 - TURDHAL AND No 6 FLOURS OF ALL KINDS - JAGGERY - INCREASE OF OCTROI

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice, jawari or tur dhall If octori is levied on the commodities, the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octro need not be levied on the above articles and need not be increased where it already exists

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly art cles of food other than rice, jawari or tur dhall If octoi s levied on the commodities, the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

Yours,

Objection filed to the proposal for levy of Octroi duty on certain commodities mentioned in Notification No H C 124-52-53 dated 2-9-53 Published in the Mysore Gazette dated 10-9-53 by the Municipality Davangere City

REGARDING ITOM No 7 - TURDHAL AND No 6 FLOURS OF ALL KINDS - JAGGERY - INCREASE OF OCTROI

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice, jawari or tur dhall If octori is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

REGARDING ITOM No 7 - TURDHAL AND No 6 FLOURS OF ALL KINDS - JAGGERY - INCREASE OF OCTROI

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice, jawari or tur dhall If octoi is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel is not humane at all If they do not collect they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facility also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirecely, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will b put to trouble and the Municipality will get less income the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

Objection filed to the proposal for levy of Octroi duty on certain commodities mentioned in Notification No H C 124-S2-53 dated 2-9-53 Published in the Mysore Gazette dated 10-9-53 by the Municipality Davangere City

REGARDING ITOM No 7 - TURDHAL AND No 6 FLOURS OF ALL KINDS - JAGGERY - INCREASE OF OCTROI

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice jawari or tur dhall If octroi is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facility also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

Objection filed to the proposal for levy of Octroi duty on certain commodities mentioned in Notification No H C 124-52-53 dated 2-9-53 Published in the Mysore Gazette dated 10-9-53 by the Municipality Davangere City

REGARDING ITOM No 7 - TURDHAL AND No 6 FLOURS OF ALL KINDS - JAGGERY - INCREASE OF OCTROI

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly art cles of food other than rice, jawari or tur dhall If octori is levied on the commodities, the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants her are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice, jawari or tur dhall If octori is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

REGARDING ITOM No 7 - TURDHAL AND No 6 FLOURS OF ALL KINDS - JAGGERY - INCREASE OF OCTROI

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice, jawari or tur dhall If octori is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice, jawari or tur dhall If octori is levied on the commodities, the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice, jawari or tur dhall If octoi is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

The Minister for Local Self Government

in Mysore, Bangalore

Objection filed to the proposal for levy of Octroi duty on certain commodities mentioned in Notification No H C 124-52-53 dated 2-9-53 Published in the Mysore Gazette dated 10-9-53 by the Municipality Davangere City

REGARDING ITOM No 7 - TURDHAL AND No 6 FLOURS OF ALL KINDS - JAGGERY - INCREASE OF OCTROI

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice, jawari or tur dhall If octoi is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

The Secretary to the Government of Mysore,
Local Self-Government Department,
BANGALORE, 1

Dear Sir,

Subject Proposed levy of Octroi Duty by the City Municipal Council as per Notification No.H C 162/53-54, dated 28/29th Dec 1953

I beg to enclose herewith, for your kind perusal, a copy of letter dated 12th March 1 954 addressed by various trade interests of Davangere to the President of the City Municipal Council on the above subject. In this connection I am directed to submit the following points for the sympathetic consideration of the Government.-

1. The Bye Law Committee of the City Municipal Council consisting of six Municipal Councillors including the President, was convened to consider the Commissioner's suggestions for improving the finances of the Municipality. Only three out of the six members of this Bye-Law Committee decided to levy Octroi duty on about 63 additional items.

2 The report of the Bye-Law Committee was adopted at the monthly meeting of the Municipal Council held on 28th November 1953 This was duly published in the Mysore Gazette, for eliciting public opinion

3 Accordingly various trade interests discussed the proposals and unanimously condemned the additional levy as the same would cripple and hamper the trade of this City. It is the considered opinion of the various trade interests that if Octroi is levied as per the Notification referred to above, the enormous trade and commerce of this city built by decades of patient business acumen of the merchants would not only receive a a set back but the whole trade would be diverted from this city. Because there is no such taxation as is in the proposed notification, traders of this place are able to compete successfully and increase their business. Any additional taxation would naturally hamper the trade There have been many instances wherein such local taxation has diverted trade and commerce. The Municipality by this new taxation will not only do not get its anticipated revenue from this source, but cripple the trade also which is very vital to the improvement of this city.

Various trade interests met the President and many Councilors and explained to them how trade has grown by the competitive skill of the merchants, and how such an enormous trade would be thwarted by additional taxation. But the President and Councillors were indifferent to the representations and became adamant All traders jointly decided to observe Hartal on 28th January 1954, and thus vindicate the popular opposition to the levy Complete Hartal was observed on that day when even the Regulated Market auctions and Hotels too suspended business A public meeting was held under my presidency and the enclosed resolution was passed unanimously.

(P T O

5. Realising the popular agitation and unanimity against the proposals, the President of the City Municipal Council initiated negotiations with the trade interests for an amicable settlement. Accordingly a meeting of the different trade interests was convened on 20th February 1954 by the President when almost all the leading merchants attended the meeting. The President disclosed that at least a sum of Rs.1.5 lakhs was required for the Municipality to carry on its improvement works and appealed for the co-operation of the merchants in improving the finances. The merchants desired to know the exact receipts and expenditure of the Municipality, on the basis of which they could suggest alternate proposals for increasing the revenues. The President thereupon promised to furnish the Octroi Agitation Committee with the required facts and figures. He further requested the merchants to give their alternate proposals at an early date so that the Municipal Council may have the benefit of discussing the same.

But when a request was made to the President to furnish the receipts and expenditure of the Municipality for the year 1952-53 and 1953-54, no reply was received. Even when leading merchants approached the President personally and requested the figures pertaining to Municipal receipts and expenditure, he displayed dilatory tactics and evaded. If the merchants had made aware of the municipal finances, alternate suggestions for increasing the revenues would have been made. Thus, negotiations for an amicable settlement initiated by the President himself abruptly ended.

Continuing their dilatory tactics the President and some Councillors decided to convene a special meeting on 11-3-1954, when another Committee of 8 councillors was asked to consider the objections received in regard to the proposed levy. The committee hurriedly met on the very next day, recommended to omit on certain articles which do not come to this City, showed favouritism on certain other articles in which the councillors themselves had an interest and for a majority of items the levy has been continued. Again a special meeting of the Council was convened on the 13th March 1954 when about 15 councillors attended and approved the recommendations of the committee. Thus, the proposal of levying Octroi duty has been rushed through for sanction of the Government.

8. The proposed Octroi levy is a retrograde measure and will certainly divert trade and commerce of this city. In addition to the loss of trade of this city, consumers mostly poor and middle class people will be hit hard by increase in prices of essential commodities.

9. It is, therefore, the earnest request of different trade interests that the Government should very carefully consider the pros and cons of the proposals of the Municipal Council so hurriedly made, and negative the same in the interest of advancement of trade and commerce of this city. The local mercantile community, as stated in the resolution made at the public meeting (copy enclosed) consider no sacrifice as too great to counter the reactionary proposals of the Municipality.

I am, therefore, directed to request you to please suggest to the Municipal Council to drop the retrograde measure in the light of this representation and explore alternate proposals for augmenting municipal finances.

Yours faithfully,

President.

Davangere,
18th March 1954.

169

The President,
City Municipal Council,
DAVANGERE.

S i r,

We, the undersigned representatives of various trade interests and consumers appointed at the Public Meeting held on 28th January 1954, desire to bring to your kind notice finally the disastrous consequences of the new Octroi Levy as notified in No.M.C.162-53-54, dated 28th/29th December 1953.

You are well aware that the City Municipal Council through your goodself initiated negotiations with the different trade interests with a view to arrive at a peaceful solution of this unwarranted levy. Accordingly you invited on Saturday the 20th February 1954 the representatives of various trade interests. After protracted discussions you agreed to supply the Octroi Agitation Committee with facts and figures pertaining to the present Municipal finances so that fresh avenues of revenue may be explored by the Committee. In spite of both written and oral requests made to you, we are constrained to learn that you have not kept up the promise made to the trade interests at the meeting convened by you on 20th February 1954. It is deplorable that you should thus act and keep the public guessing about the true state of the municipal finances.

We now very much regret to learn that when negotiations are still going on thus, you should have resorted to bring this matter before the Municipal Council once again, thus utterly disregarding popular feelings in this regard. If only you had cared to furnish the facts and figures as promised by you and requested by us, we feel that it would have been possible to have arrived at an amicable solution of this problem. Unfortunately you have gone back to the Council, disregarding the trade representatives and perhaps you want to impose this unwarranted levy and thus divert trade and commerce of this City. If the Municipal Council is still adamant to disregard the popular verdict on this question and resolve to impose Octroi levy as per the notification referred to above, we feel that you and those councillors who support you in this move will be responsible for all the consequences that may following this unprecedented step.

Yours faithfully,

Davangere City,
12th March 1954.

5. Realising the popular agitation and unanimity against the proposals, the President of the City Municipal Council initiated negotiations with the trade interests for an amicable settlement. Accordingly a meeting of the different trade interests was convened on 20th February 1954 by the President when almost all the leading merchants attended the meeting. The President disclosed that at least a sum of Rs.1.5 lakhs was required for the Municipality to carry on its improvement works and appealed for the co-operation of the merchants in improving the finances. The merchants desired to know the exact receipts and expenditure of the Municipality, on the basis of which they could suggest alternate proposals for increasing the revenues. The President thereupon promised to furnish the Octroi Agitation Committee with the required facts and figures. He further requested the merchants to give their alternate proposals at an early date so that the Municipal Council may have the benefit of discussing the same.

It when a request was made to the President to furnish the receipts and expenditure of the Municipality for the year 1952-53 and 1953-54, no reply was received. Even when leading merchants approached the President personally and requested the figures pertaining to Municipal receipts and expenditure, he displayed dilatory tactics and evaded. If the merchants had made aware of the municipal finances, alternate suggestions for increasing the revenues would have been made. Thus, negotiations for an amicable settlement initiated by the President himself abruptly ended.

Continuing their dilatory tactics the President and some Councillors decided to convene a special meeting on 11-3-1954 when another Committee of 8 councillors was asked to consider the objections received in regard to the proposed levy. The committee hurriedly met on the very next day, recommended to omit on certain articles which do not come to this City, showed favouritism on certain other articles in which the councillors themselves had an interest and for a majority of items the levy has been continued. Again a special meeting of the Council was convened on the 13th March 1954 when about 15 councillors attended and approved the recommendations of the committee. Thus, the proposal of levying Octroi duty has been rushed through for sanction of the Government.

The proposed octroi levy is a retrograde measure and will certainly divert trade and commerce of this city. In addition to the loss of trade of this city, consumers mostly poor and middle class people will be hit hard by increase in prices of essential commodities.

9. It is, therefore, the earnest request of different trade interests that the Government should very carefully consider the pros and cons of the proposals of the Municipal Council so hurriedly made, and negative the same in the interest of advancement of trade and commerce of this city. The local mercantile community, as stated in the resolution made at the public meeting (copy enclosed) consider no sacrifice as too great to counter the reactionary proposals of the Municipality.

I am, therefore, directed to request you to please suggest to the Municipal Council to drop the retrograde measure in the light of this representation and explore alternate proposals for augmenting municipal finances.

Encl Two

Yours faithfully,
D.K. Sreenivasa Setty
President.

Davangere,

BANGALORE, 1

Respected Sir,

Subject Proposed Octroi Levy by the Davangere City Municipal Council as per Notification No.H C 162/53-54, dated 28/29th Dec 1953.

L S G Secy

27/3

I enclose herewith a copy of letter dated 12th March addressed to the President, City Municipal Council, Davangere, and letter dated 18th March 1954 addressed to the Secretary, L S G Department The letters are self-explanatory.

The public of Davangere are very much agitated over the proposed Octroi levy by the City Municipal Council. The mercantile community consider that additional taxation in the wake of fresh taxation proposals of the Government will cripple and divert the trade of this City. Therefore, various trade interests have decided to wait on deputation before your good self and represent the consequences in detail. I shall be much obliged if you please receive the deputation of representatives of various trade interests and inform me the most suitable and convenient date and time to you. I shall be very thankful for an early reply.

Yours faithfully,

Davangere City,
19th March 1954.

PRESIDENT,
(Public Meeting held on 28-1-54)

To

The Secretary to the Government of Mysore,
Local Self-Government Department,
BANGALORE, 1.

Dear Sir,

Subject Proposed levy of Octroi Duty by the City Municipal Council as per Notification No.H C 162/53-54, dated 28/29th Dec.1953.

I beg to enclose herewith, for your kind perusal, a copy of letter dated 12th March 1 954 addressed by various tra de interests of Davangere to the President of the City Municipal Council on the above subject. In this connection I am directed to submit the following points for the sympathetic consideration of the Government.-

1. The Bye Law Committee of the City Municipal Council consisting of six Municipal Councillors including the President, was convened to consider the Commissioner' suggestions for improving the finances of the Municipality. Only three out of the six members of this Bye-Law Committee decided to levy Octroi duty on about 63 additional items.

2. The report of the Bye-Law Committee was adopted at the monthly meeting of the Municipal Council held on 28th November 1953 This was duly published in the Mysore Gazette, for eliciting public opinion.

3. Accordingly various trade interests discussed the proposals and unanimously condemned the additional levy as the same would cripple and hamper the trade of this City. It is the considered opinion of the various trade interests that if Octroi is levied as per the Notification referred to above, the enormous trade and commerce of this city built by decades of patient business acumen of the merchants would not only receive a a set back but the whole trade would be diverted from this city. Because there is no such taxation as is in the proposed notification, traders of this place are able to compete successfully and increase their business. Any additional taxation would naturally hamper the trade. There have been many instances wherein such local taxation has diverted trade and commerce. The Municipality by this new taxation will not only do not get its anticipated revenue from this source, but cripple the trade also which is very vital to the improvement of this city.

4 Various trade interests met the President and many Coun lors and explained to them how trade has grown by the competitive skill of the merchants, and how such an enormous trade would be thwarted by additional taxation. But the President and Councillors were indifferent to the representations and became adamant All traders jointly decited to observe Hartal on 28th January 1954 and thus vindicate the popular opposition to the levy. Complete Hartal was observed on that day when even the Regulated Market auctions and Hotels too suspended business. A public meeting was held under my presidency and the enclosed resolution was passed unanimously.

5. Realising the popular agitation and unanimity against the proposals, the President of the City Municipal Council initiated negotiations with the trade interests for an amicable settlement. Accordingly a meeting of the different trade interests was convened on 10th February 1954 by the President when almost all the leading merchants attended the meeting. The President disclosed that at least a sum of Rs.1.5 lakhs was required for the Municipality to carry on its improvement works and appealed for the co-operation of the merchants in improving the finances. The merchants desired to know the exact receipts and expenditure of the Municipality, on the basis of which they could suggest alternate proposals for increasing the revenues. The President thereupon promised to furnish the Octroi Agitation Committee with the required facts and figures. He further requested the merchants to give their alternate proposals at an early date so that the Municipal Council may have the benefit of discussing the same.

It was a request was made to the President to furnish the receipts and expenditure of the Municipality for the year 1952-53 and 1953-54, no reply was received. Even when leading merchants approached the President personally and requested the figures pertaining to municipal receipts and expenditure, he displayed dilatory tactics and evaded. If the merchants had made aware of the municipal finances, alternate suggestions for increasing the revenues would have been made. Thus, negotiations for an amicable settlement initiated by the President himself abruptly ended.

Turning their dilatory tactics, the President and some Councillors decided to convene a special meeting on 11-3-1954. Then the Other Committee of 8 councillors was asked to consider the objections received in regard to the proposed levy. The committee hurriedly met on the very next day, recommended to omit on certain articles which do not come to this City, showed favouritism on certain other articles in which the councillors themselves had an interest and for a majority of items the levy has been continued. Again a special meeting of the Council was convened on the 13th March 1954 when about 15 councillors attended and approved the recommendations of the committee. Thus, the proposal of levying Octroi duty has been rushed through for sanction of the Government.

8. The proposed octroi levy is a retrograde measure and will certainly divert trade and commerce of this city. In addition to the loss of trade of this city, consumers mostly poor and middle class people will be hit hard by increase in prices of essential commodities.

9. It is, therefore, the earnest request of different trade interests that the Government should very carefully consider the pros and cons of the proposals of the Municipal Council so hurriedly made, and negative the same in the interest of advancement of trade and commerce of this city. The local mercantile community, as stated in the resolution made at the public meeting (copy enclosed) consider no sacrifice as too great to counter the reactionary proposals of the Municipality.

I am, therefore, directed to request you to please suggest to the Municipal Council to drop the retrograde measure in the light of this representation and explore alternate proposals for augmenting municipal finances.

Yours faithfully,

Davangere,

K A Sreenivasa Setty

The President,
City Municipal Council,
DAVANGERE.

S i r,

We, the undersigned representatives of various trade interests and consumers appointed at the Public Meeting held on 28th January 1954, desire to bring to your kind notice finally the disastrous consequences of the new Octroi Levy as notified in No R C.162-53-54, dated 28th/29th December 1953

You are well aware that the City Municipal Council through your goodself initiated negotiations with the different trade interests with a view to arrive at a peaceful solution of this unwarranted levy. Accordingly you invited on Saturday the 20th February 1954 the representatives of various trade interests. After protracted discussions you agreed to supply the Octroi Agitation Committee with facts and figures pertaining to the present Municipal finances so that fresh avenues of revenue may be explored by the Committee. In spite of both written and oral requests made to you, we are constrained to learn that you have not kept up the promise made to the trade interests at the meeting convened by you on 20th February 1954. It is deplorable that you should thus act and keep the public guessing about the true state of the municipal finances.

We now very much regret to learn that when negotiations are still going on thus, you should have resorted to bring this matter before the Municipal Council once again, thus utterly disregarding popular feelings in this regard. If only you had cared to furnish the facts and figures as promised by you and requested by us, we feel that it would have been possible to have arrived at an amicable solution of this problem. Unfortunately you have gone back to the Council, disregarding the trade representatives and perhaps you want to impose this unwarranted levy and thus divert trade and commerce of this City. If the Municipal Council is still adamant to disregard the popular verdict on this question and resolve to impose Octroi levy as per the notification referred to above, we feel that you and those councillors who support you in this move will be responsible for all the consequences that may follow this unprecedented step.

Yours faithfully,

Davangere City,
12th March 1954.

Convenor, Octroi Agitation Committee,
DAVANGERE.

S i r,

Subject Proposed Octroi levy by the Davangere City Municipal Council as per Notification No.HC-162/53-54 of 29th Dec.

I beg to confirm the following telegram sent to you protesting against the proposed Octroi levy by the City Municipal Council

"OCTROI AGITATION COMMITTEE PROTESTS PROPOSED OCTROI LEVY MUNICIPALITY VIDE NOTIFICATION HC-162/53-54, STOP VARIOUS TRADE INTEREST REQUEST YOU RESCIND MUNICIPAL RESOLUTION ALTOGETHER CONVENOR "

In this connection I am directed to invite your kind attention to letter dated 19th March 1954, written by Shri Kasal Srinivasa Setty, President of the public meeting. As per our memorandum submitted to the Government (copy sent along with the abovementioned letter for your kind perusal), there is considerable agitation among the mercantile community against the proposed Octroi levy. The Octroi Agitation Committee begs further to state as under

1. The Municipality has already proposed Octroi on 18 items and this proposal is awaiting Government sanction.

2. The list of goods covered by these 18 items being very exhaustive and the estimated revenue exceeds Rs.2 lakhs per annum. Before fully knowing the implications of this proposed Octroi levy, the Municipal Council has hastily erred in bringing another list and passing it in post haste.

3. You are aware that as per the Sales Tax Committee, the revised sales tax on most of the goods covered by the Municipal notification referred to here, has been enhanced. If octroi is also levied on these items, the consumer will have to pay dearly.

4. The mercantile community is already oppressed with several taxation measures, Central and Provincial. Any additional local taxation will be the last straw on the proverbial camel's back.

5 Davangere is prominent on account of its trade and commerce. The merchants with decades of hard diligence have built up a first-class wholesale trade comparable to big cities. This has been possible because hitherto there has been no local taxation and merchants could successfully compete with other markets. Now the Municipality thinking that it could increase their revenue if trade is taxed, has brought in this thoughtless measure. Once local

(P T O.

local taxes are imposed naturally trade will be curtailed and diverted to other centres We can cite a number of instances where local taxation has diverted once a prosperous trade of the locality. It is the considered view of the merchants of this place that the proposed Octroi levy would certainly divert trade and commerce of this city without bringing any increase in revenue.

6. In many cities Octroi is not at all levied but when such a levy was thought of due to popular agita tion the same has been withdrawn. There is considerable agitation which is justifiable by all sections of the public and the Octroi Agitation committee, therefore, request the Government to view this matter dispassionately and do justice in the matter

I shall be very grateful if you please receive a deputation of different sections of the public of this city who are anxious to meet you in person and explain their grievances in this connection. Please let me know the date and time suitable to you to receive the deputationists.

Thanking you for an early reply,

Yours faithfully,

P V Vasudeva Setty

CONVENOR

Davangere City,
27th March 1954.

OFFICE OF THE CHIEF MINISTER No P 4444 Date 31/3/54
GENERAL & REVENUE SECRETARIAT 24 11 APR 1954 MUNICIPAL BRANCH

To

Shri K. Hanumanthaiah, B.A., LL B.,
Chief Minister, Government of Mysore,
BANGALORE, 1.

From

P V Vasudeva Setty, Esq.,
Convenor, Octroi Agitation Committee,
DAVANGERE.

S i r,

Subject. Proposed Octroi levy by the Davangere City Municipal Council as per Notification No.H.C. 162/53-54, dated 29th December 1953.

I beg to confirm the following telegram sent to you protesting against the proposed Octroi levy by the City Municipal Council

"OCTROI AGITATION COMMITTEE PROTESTS PROPOSED OCTROI LEVY MUNICIPALITY VIDE NOTIFICATION HC-162/53-54, STOP VARIOUS TRADE INTERESTS REQUEST YOU RESCIND MUNICIPAL RESOLUTION ALTOGETHER CONVENOR "

In this connection I beg to bring to your kind notice the following facts which culminated in the opposition to Municipal taxation measure

1. At the suggestion of the Bye-Law Committee (where only three out of six members attented) the Commissioner' proposal for levying Octroi on 63 categories of goods imported into Davangere City was passed. This report was duly accepted by the Municipal Council and was notified in the Gazette.

2. Various trade interests discussed the proposals and unanimously condemned that the additional Octroi levy cripple and diver the trade of this city. It is the considered opinion of the various trade interests that if Octroi is levied as per the Notification referred to above, the enormous trade and commerce of this city built by decades of patient business acumen of the merchants would not only be crippled but also diverted to other centres. Because there is no such local taxation, traders have been able to compete with merchants of big cities When once trade is diverted, the Municipality can hardly justify the measure it has sought to impose without as much as caring for the opposition.

3. As a mark of protest against the retrograde proposals of the Municipality the traders observed peaceful hartal on 28th January 1954. The Hartal was very successful inasmuch as auctions in the Regulated Market were suspended and even the Hotels closed their business. At the public meeting held in the evening a Resolution was passed unanimously (copy enclosed for your kind perusal).

4 Realising the popular agitation the Presidence of the City Municipal Council initiated discussions with the merchants and convened a meeting on 20th February. The merchants extended their willing co-operation in matters municipal, but before agreeing for new taxation

(P T O

taxation proposals the merchants desired to be apppised of the Municipal finances, when the President promised to furnish figures and facts. In spite of several requests no such revelations came out and in post haste the President convened a Special Meeting on the 13th March 1954 and got the measure passed with the help of a few councillors.

5 The Municipality has already proposed Octroi on a bout 18 items which is awaiting Government sanction.

6. The list of goods covered by these 18 items along will bring in a revenue of over Rs.2 lakhs and for the City improvement needs no further taxation is necessar But before fully knowing the implications of the proposals another list comprising from betel nut to tooth polish, every required article by the consumers, has been taxed.

7. The mercantile community is already oppressed with several taration measures, Central and Provincial. Any additional local taxation will be like the last straw on the proverbial camel's back.

8 You are aware that many cities have not at all imposed any local taxes and have helped trade and commerce to grow. There is considerable agitation of the public against the proposed levy and the merchants consider no sacrifice as too great to combat the retrograde measure. The Octroi Agitation Committee, therefore, request the Government to view this matter dispassionately and do justice in the matter.

I shall be very grateful if you please receive a deputation of different sections of the public of this city who are anxious to meet you in person and explain their grieyances in this connection Please let me know the date and time suitable to you to receive the deputationists.

Thanking you for an early reply,

OFFICE OF THE MINISTER No P 4355 Date 26/3/54
GENERAL & REVENUE FINANCIAL 29 MAR 1954
20 MAR 1954

Objection filed to the proposal for levy of Octroi duty on certain commodities mentioned in Notification No H C 124-52-53 dated 2-9-53 Published in the Mysore Gazette dated 10-9-53 by the Municipality Davangere City

REGARDING ITOM No 7 - TURDHAL AND No 6 FLOURS OF ALL KINDS - JAGGERY - INCREASE OF OCTROI

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly art cles of food other than rice jawari or tur dhall If octori is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

REGARDING ITOM No 7 - TURDHAL AND No 6 FLOURS OF ALL KINDS - JAGGERY - INCREASE OF OCTROI

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice jawari or tur dhall If octori is levied on the commodities, the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice, jawari or tur dhall If octroi is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice, jawari or tur dhall If octoi is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice jawari or tur dhall If octroi is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice jawari or tur dhall If octori is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice, jawari or tur dhall If octoroi is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice, jawari or tur dhall If octori is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied, the merchants cannot but collect the duty paid by them from the consumers which, they feel is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

Sir,

The above commodities, namely, Tur Dhall and Flours of all kinds are such common commodities which are mostly essential to the normal daily life of human beings in general The middle class and ordinary class people use it mostly and the rich can of course use vegetables and other costly articles of food other than rice jawari or tur dhall If octroi is levied on the commodities the people will have to starve since they cannot possibly buy other articles and they will not be able to buy these articles mentioned above This is the very reason why benign Government had thought it fit not to levy sales tax on these commodities Why not the self-Government i e, Davangere Municipality follow the example of this benign Government The local Government should not only think of its income and budget but also think of feasibility and effect of levy of octroi and humane side of things whenever they proceed further It is nothing but inhuman to levy octroi on all these essential commodities at this juncture

Another aspect of the matter is that the merchants here are importing these goods in huge quantities to suffice for the public These are not available in local places unless imported from outside What is grown locally is negligible when compared to the need of the public They are selling at a low margin of profits since they are essential commodities for daily existence of human beings If octroi is levied the merchants cannot but collect the duty paid by them from the consumers which, they feel, is not humane at all If they do not collect, they will not be in a position to pay all kinds of taxes and other duties that are being levied which itself is very heavy

Another aspect of the matter is that by levy of octroi by the Davangere City Municipality, the merchants will have to find out other means of avoiding the duty of octroi by opening shops in smaller places for import and export purposes in the neighbouring small places where they can get transport facilty also That is how the market of cloth trade is shifted on from Davangere and Chitaldurg to smaller places and the shop in smaller places are having more stocks than those in Davangere The same fate applies to these commodities also Indirectly, the people will be forced to learn all bad ways of avoiding the levy of octroi By the market shifting to smaller places, people will be put to trouble and the Municipality will get less income, the Government will get less income by way of taxes etc Thereby Davangere will lose its importance People will have to go to other places purposely for buying these necessities Then if there is scarcity of commodities, in the market, the rates also may go high and there may be scarcity of good quality goods specially food stuffs which may be had for health

It is hoped that the benign Government will consider the other aspects in the interest of the merchants, consumers and the Municipality and Government and existence of merchants and peaceful living of people It is unsafe to levy octroi indiscriminately viewing only from one angle of vision i e, income and increase of income to the Municipality

We request that the above and other objections may kindly be considered and octroi need not be levied on the above articles and need not be increased where it already exists

Extract from the Memorandum submitted by the Davangere City Municipal Council to the Minister for P.H. & L.S.G.

REVENUE SECRETARIAT
6 MA
1394
MUNICIPAL B

14. Levy of Octroi on 32 articles.

With a view to improve the slender resources of the Municipality and also to enable the Municipality to repay the Government loans which amount to Rs.22.40 lakhs involving on annual instalment of Rs.2,12,000/- payable to Government by the Municipality, the Council proposed to levy Octroi on 63 additional articles. A Gazette notification dated 28/29th was issued calling for objections. The Council after taking into consideration all the objections received and after thorough scrutiny have resolved at their meeting held on 13-3-1954 to levy Octroi duty on 32 additional articles as against 63 articles originally proposed. The probable approximate revenue expected by levy of octroi on these 32 items is Rs.64,050/- per annum.

The proposals have been submitted to Government with this office letter No.H.C.162/53-54 dated 26-3-1954.

The rate of levy proposed is low and much below the maximum rate prescribed in Schedule II of the City Municipalities Act and ranges between 1 to 2 pies in the rupee. It is requested that Government may be pleased to accord sanction to the proposal of the Municipal Council at a very early date.
